Mouse anti Gram Negative Bacteria DNA Adenine Methylase, IgG1, Clone: [RB1], Unconjugated, Monoclonal NMB-X1610M

Artikelname	Mouse anti Gram Negative Bacteria DNA Adenine Methylase, IgG1, Clone: [RB1], Unconjugated, Monoclonal
Artikelnummer	NMB-X1610M
Hersteller Artikelnummer	X1610M
Alternativnummer	NMB-X1610M
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Applikation	WB
Spezies Reaktivität	Bacteria
Konjugation	Unconjugated
Produktbeschreibung	DNA adenine methylase (DAM) is an enzyme that methylates adenine residues in the 4-base pair DNA sequence, GATC. This methylation reaction has been shown to be crucial in a variety of cellular processes in bacteria. These include (i) the control of i...
Klonalität	Monoclonal
Konzentration	See vial for concentration
Klon-Bezeichnung	[RB1]
Isotyp	IgG1

UniProt	P0AEE8
Puffer	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Quelle	Hybridoma obtained after immunization of mice with recombinant DNA Adenine Methylase protein.
Reinheit	Protein A/G Chromatography
Formulierung	Unconjugated
Formel	Provided as solution in phosphate buffered saline with 0.08% sodium azide
Anwendungsbeschreibung	Antibody can be used for Western blotting (1-5 µg/ml). Other applications not yet evaluated. Optimal concentration should be evaluated by serial dilutions. The antibody reacts with the recombinant protein as produced by E.coli. We have no data to support to its reactivity with wild type DAM protein.
