Product Datasheet

Mouse anti M13 phage coat protein g8p, IgG2a, Clone: [RL-ph2], Monoclonal NMB-MUB0604P

Artikelname	Mouse anti M13 phage coat protein g8p, IgG2a, Clone: [RL-ph2], Monoclonal
Artikelnummer	NMB-MUB0604P
Hersteller Artikelnummer	MUB0604P
Alternativnummer	NMB-MUB0604P
Hersteller	NordicMubio
Wirt	Mouse
Kategorie	Antikörper
Applikation	FC, IAC, ICC, WB
Spezies Reaktivität	Bacteria
Produktbeschreibung	The display of repertoires of antibody fragments on the surface of filamentous phage offers a new way to produce immunoreagents with defined specificities. Phage derived antibody fragments offer a number of advantages over Mouse monoclonal antibodies...
Klonalität	Monoclonal
Klon-Bezeichnung	[RL-ph2]
Isotyp	IgG2a
UniProt	P69541

Puffer	Each vial contains 100 ul 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.
Quelle	RL-ph2 is a mouse monoclonal IgG2a, kappa antibody derived by fusion of SP2/0-Ag14 mouse myeloma cells with spleen cells from a Balb/c mouse immunized with isolated M13 phage coat proteins.
Reinheit	ProtG affinity purification
Anwendungsbeschreibung	RL-ph2 is particularly useful for immunoblotting of separated phage proteins, and is also suitable for detection of M13 phages in multistep immunoblotting procedures, immunocytochemistry, flow cytometry, affinity chromatography and ELISA. Optimal antibody dilution should be determined by titration, recommended range is 1:25 - 1:200 for flow cytometry, and 1:100 - 1:1000 for immunoblotting applications.
