Product Datasheet

Rabbit anti Human Gi alpha 1/2, Unconjugated NMB-X1595P

Artikelname	Rabbit anti Human Gi alpha 1/2, Unconjugated
Artikelnummer	NMB-X1595P
Hersteller Artikelnummer	X1595P
Alternativnummer	NMB-X1595P
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Applikation	WB
Spezies Reaktivität	Bovine, Human, Mouse, Rat
Konjugation	Unconjugated
Produktbeschreibung	GTP-binding proteins (G-proteins) play a critical role in signal transduction by coupling receptors to effectors. The intracellular consequences of G-protein activation include second messenger generation, protein phosphorylation, ion channel activat...
Konzentration	See vial for concentration
Isotyp	IgG
UniProt	P04899
Puffer	Provided as solution in phosphate buffered saline with 0.08% sodium azide

Quelle	Rabbits were immunized with a peptide corresponding to amino acids 345-354 of Gi 1 and 346-355 of Gi 2.
Formulierung	Unconjugated
Anwendungsbeschreibung	Antibody can be used for Western blotting (5-10 µg/ml). Optimal concentration should be evaluated by serial dilutions.
