| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant full-length human GAST protein was used as the immunogen for this Gastrin antibody.                                                                                                                                                             |
| Produktbeschreibung      | Gastrin, is a hormone that normally formed by mucosal cells in the gastric antrum and by the D cells of the pancreatic islets. Its primary function is to stimulate secretion of HCl by the gastric mucosa. HCl, in turn, inhibits gastrin formation. It a... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.2 mg/ml with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                                                                                                                                                                                 |
| Klon-Bezeichnung         | [GAST/2632]                                                                                                                                                                                                                                                   |
| Isotyp                   | Mouse IgG1, kappa                                                                                                                                                                                                                                             |

|                        |                                                                                  |
|------------------------|----------------------------------------------------------------------------------|
| UniProt                | <a href="#">P01350</a>                                                           |
| Puffer                 | 0.2 mg/ml with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                    |
| Reinheit               | Protein G affinity chromatography                                                |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide       |
| Target-Kategorie       | Gastrin                                                                          |
| Antibody Type          | Primary Antibody                                                                 |
| Application Verdünnung | ELISA (order BSA-free format for coating)                                        |
| Anwendungsbeschreibung | Optimal dilution of the Gastrin antibody should be determined by the researcher. |
