| Hersteller               | NSJ Bioreagents                                                                                                                                                                                                                                               |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant human partial protein (amino acids 203-305) was used as the immunogen for this recombinant GLUT1 antibody.                                                                                                                                      |
| Produktbeschreibung      | Recognizes a protein of 55kDa, which is identified as GLUT-1. Glucose transporters are integral membrane glycoproteins involved in transporting glucose into most cells. There are many types of glucose transport carrier proteins, designated as Glut-1 ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.2 mg/ml with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                                                                                                                                                                                 |
| Klon-Bezeichnung         | [rGLUT1/2476]                                                                                                                                                                                                                                                 |

|                        |                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------|
| Isotyp                 | Mouse IgG1, kappa                                                                          |
| UniProt                | <a href="#">P11166</a>                                                                     |
| Puffer                 | 0.2 mg/ml with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                              |
| Reinheit               | Protein G affinity chromatography                                                          |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced) and 0.05% sodium azide                 |
| Target-Kategorie       | GLUT1                                                                                      |
| Antibody Type          | Primary Antibody                                                                           |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                      |
| Anwendungsbeschreibung | Optimal dilution of the recombinant GLUT1 antibody should be determined by the researcher. |
