| Hersteller               | Abcepta                                                                                                                                                                                                                                           |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                  |
| Produktbeschreibung      | CRHR2 is a receptor for corticotropin releasing factor. It Shows high-affinity CRF binding. Also binds to urocortin I, II and III. The activity of this receptor is mediated by G proteins which activate adenylyl cyclase....                    |
| NCBI                     | <a href="#">1395</a>                                                                                                                                                                                                                              |
| UniProt                  | <a href="#">Q13324</a>                                                                                                                                                                                                                            |
| Formulierung             | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                                                                              |
| Target-Kategorie         | The synthetic peptide sequence used to generate the antibody AP6787c was selected from the Center region of human CRHR2. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
