| Hersteller               | Abcepta                                                                                                                                                                                                                                            |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                   |
| Produktbeschreibung      | ALKBH8 may inhibit apoptosis and promote cell survival and angiogenesis....                                                                                                                                                                        |
| NCBI                     | <a href="#">91801</a>                                                                                                                                                                                                                              |
| UniProt                  | <a href="#">Q96BT7</a>                                                                                                                                                                                                                             |
| Formulierung             | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                                                                               |
| Target-Kategorie         | The synthetic peptide sequence used to generate the antibody AP6801b was selected from the C-term region of human ALKBH8. A 10 to 100 fold molar excess to antibody is recommended. Precise conditions should be optimized for a particular assay. |
