| Artikelname              | HDLBP Antibody (Center) Blocking Peptide                                                                                                                                                      |
| Artikelnummer            | ABT-BP9415C                                                                                                                                                                                   |
| Hersteller Artikelnummer | BP9415c                                                                                                                                                                                       |
| Alternativnummer         | ABT-BP9415C-500UG                                                                                                                                                                             |
| Hersteller               | Abcepta                                                                                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                                                                                              |
| Produktbeschreibung      | High density lipoprotein-binding protein, also known as vigilin, is a 110-kD protein that specifically binds HDL molecules and may function in the removal of excess cellular cholesterol.... |
| NCBI                     | <a href="#">3069</a>                                                                                                                                                                          |
| UniProt                  | <a href="#">Q00341</a>                                                                                                                                                                        |
| Formulierung             | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                          |
