| Hersteller Artikelnummer | BP9964a                                                                                                                                                                         |
| Alternativnummer         | ABT-BP9964A-500UG                                                                                                                                                               |
| Hersteller               | Abcepta                                                                                                                                                                         |
| Kategorie                | Proteine/Peptide                                                                                                                                                                |
| Produktbeschreibung      | DLL4 is a homolog of the Drosophila delta gene. The delta gene family encodes Notch ligands that are characterized by a DSL domain, EGF repeats, and a transmembrane domain.... |
| NCBI                     | <a href="#">54567</a>                                                                                                                                                           |
| UniProt                  | <a href="#">Q9NR61</a>                                                                                                                                                          |
| Formulierung             | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                            |
