| Hersteller               | Abcepta                                                                                                                                                                                                                                                       |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IHC-P, WB                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | 3-Phosphoglycerate dehydrogenase catalyzes the transition of 3-phosphoglycerate into 3-phosphohydroxypyruvate, which is the first and rate-limiting step in the phosphorylated pathway of serine biosynthesis, using NAD <sup>+</sup> /NADH as a cofactor.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [RB20882]                                                                                                                                                                                                                                                     |

| UniProt                  | <a href="#">O43175</a>                                                                                                                                                                                                                                        |

|                  |                                                                                                                                                                                           |
|------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung     | Purified polyclonal antibody supplied in PBS with 0.09% (W/V) sodium azide. This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |
| Target-Kategorie | This PHGDH antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 140-168 amino acids from the N-terminal region of human PHGDH.                    |
| Antibody Type    | Polyclonal Antibody                                                                                                                                                                       |
