| Hersteller Artikelnummer | BP10461a                                                                                                                                                                                     |
| Alternativnummer         | ABT-BP10461A-500UG                                                                                                                                                                           |
| Hersteller               | Abcepta                                                                                                                                                                                      |
| Kategorie                | Proteine/Peptide                                                                                                                                                                             |
| Produktbeschreibung      | CHST3 is an enzyme which catalyzes the sulfation of chondroitin, a proteoglycan found in the extracellular matrix and most cells which is involved in cell migration and differentiation.... |
| NCBI                     | <a href="#">9469</a>                                                                                                                                                                         |
| UniProt                  | <a href="#">Q7LGC8</a>                                                                                                                                                                       |
| Formulierung             | Peptides are lyophilized in a solid powder format. Peptides can be reconstituted in solution using the appropriate buffer as needed.                                                         |
