| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Human CEA protein was used as the immunogen for the CEA antibody.                                                                                                                                                                                             |
| Produktbeschreibung      | This antibody recognizes proteins of 80-200kDa, identified as different members of CEA family. CEA is synthesized during development in the fetal gut and is re-expressed in increased amounts in intestinal carcinomas and several other tumors. This MAb... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P06731</a>                                                                                                                                                                                                                                        |
| Puffer                   | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                                                                                                                                                                                       |

|                        |                                                                                                   |
|------------------------|---------------------------------------------------------------------------------------------------|
| Reinheit               | Protein A/G affinity                                                                              |
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                           |
| Antibody Type          | Primary Antibody                                                                                  |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                                             |
| Anwendungsbeschreibung | Optimal dilution of the Carcinoembryonic Antigen antibody should be determined by the researcher. |
