| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa193-326) of human POSTN protein (exact sequence is proprietary)                                                                                                                                                                |
| Produktbeschreibung      | Periostin (PN), also designated osteoblast-specific factor 2 (OSF-2), is a disulfide linked protein originally isolated as a osteoblast-specific factor. Periostin is a secreted protein that binds heparin and functions as a ligand for V3 and V5 integr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [POSTN/8523R]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 84/74kDa (Periostin), 90kDa (secreted glycoprotein)                                                                                                                                                                                                           |

|                        |                                                                                                                                                                                                                                                                |
