| Applikation              | IHC, WB                                                                                                                                                                                                                                                                 |
| Spezies Reaktivität      | Canine, Human                                                                                                                                                                                                                                                           |
| Immunogen                | Recombinant human MCM7 protein fragment (aa195-319) (exact<br>sequence is proprietary)                                                                                                                                                                                  |
| Produktbeschreibung      | The specificity of this monoclonal antibody to its intended target was<br>validated by HuProt™ Array, containing more than 19,000, full-<br>length human proteins. MCM7 is one of the highly conserved mini-<br>chromosome maintenance proteins (MCM) that is essent... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                              |
| Klon-Bezeichnung         | [rMCM7/1468]                                                                                                                                                                                                                                                            |
| Molekulargewicht         | 88kDa                                                                                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Isotyp                 | IgG1                                                                                                                                                                                                                                                           |
| NCBI                   | <a href="#">4176</a>                                                                                                                                                                                                                                           |
| UniProt                | <a href="#">P33993</a>                                                                                                                                                                                                                                         |
| Formulierung           | 200ug/ml of Ab produced in HEK293 cell mammalian-based expression system. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.                                                                                   |
| Antibody Type          | Recombinant Monoclonal Antibody                                                                                                                                                                                                                                |
| Anwendungsbeschreibung | Western Blot (1-2ug/ml),,Immunohistochemistry (Formalin-fixed) (0.5-1ug/ml for 30 minutes at RT),(Staining of formalin-fixed tissues requires boiling tissue sections in 10mM citrate buffer, pH 6.0, for 10-20 min followed by cooling at RT for 20 minutes), |
