| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide corresponding to residues within aa700-800 of human RRM1 (exact sequence is proprietary)                                                                                                                                                    |
| Produktbeschreibung      | Ribonucleotide reductase M1 polypeptide (RRM1) is one of two non-identical subunits for ribonucleoside-diphosphate reductase, an enzyme which catalyzes the biosynthesis of deoxyribonucleotides from the corresponding ribonucleotides. It provides the p... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [RRM1/4372R]                                                                                                                                                                                                                                                  |
| Molekulargewicht         | 94kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                                                                                                                |
