| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | FC, IF, IHC, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                        |
| Immunogen                | Recombinant full-length human SILV protein                                                                                                                                                                                                                   |
| Produktbeschreibung      | The gp100 molecule is a 100kDa glycosylated protein that is cleaved into a small (26kDa) carboxy-terminal fragment and a larger amino-terminal section (60-64 kDa), which is subsequently cleaved to generate 26kDa and 34-38kDa fragments. Cytotoxic T l... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 26-100kDa                                                                                                                                                                                                                                                    |

| UniProt                  | <a href="#">P40967</a>                                                                                                                                                                                                                                       |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | 200ug/ml of Ab Purified by Protein A. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.                                                                                                                      |
| Anwendungsbeschreibung | Flow Cytometry (1-2ug/million cells), Immunofluorescence (1-2ug/ml), Western Blot (2-4ug/ml), Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 minutes at RT)(Staining of formalin-fixed tissues requires heating tissue sections in 10mM Tris with 1mM |
