| Spezies Reaktivität      | Bovine, Human, Mouse, Porcine, Rat                                                                                                                                                                                                                            |
| Immunogen                | Native UchL1 (PGP9.5) protein from brain                                                                                                                                                                                                                      |
| Produktbeschreibung      | This MAb reacts with a protein of 20-30kDa, identified as PGP9.5, also known as ubiquitin carboxyl-terminal hydrolase-1 (UchL1). Initially, PGP9.5 expression in normal tissues was reported in neurons and neuroendocrine cells but later it was found in... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SPM574]                                                                                                                                                                                                                                                      |
| Molekulargewicht         | 20-30kDa                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">7345</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                               |
