| Immunogen                | Mitochondrial fraction of HeLa cells                                                                                                                                                                                                                          |
| Produktbeschreibung      | This MAb recognizes a 60kDa antigen associated with the mitochondria in cells. It is a part of a new panel of reagents, which recognizes subcellular organelles or compartments of cells. These markers may be useful in identification of these organelle... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MTC719]                                                                                                                                                                                                                                                      |
| Molekulargewicht         | 60kDa                                                                                                                                                                                                                                                         |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                                |
