Product Datasheet

Rhodopsin Antibody, IgG1, Clone: [1D4], Mouse, Monoclonal ROC-200-301-E29

Artikelname	Rhodopsin Antibody, IgG1, Clone: [1D4], Mouse, Monoclonal
Artikelnummer	ROC-200-301-E29
Hersteller Artikelnummer	200-301-E29
Alternativnummer	ROC-200-301-E29
Hersteller	Rockland Immunochemicals
Wirt	Mouse
Kategorie	Antikörper
Applikation	IHC, WB
Spezies Reaktivität	Amphibian, Mammal
Immunogen	Anti-Rhodopsin Monoclonal Antibody was produced in mouse by repeated immunizations with purified native bovine rhodopsin.
Konjugation	Unconjugated
Klonalität	Monoclonal
Konzentration	Titrated value sufficient to run approximately 10 mini blots.
Klon-Bezeichnung	[1D4]
Isotyp	IgG1
NCBI	509933
UniProt	P02699

Puffer	0.01 M HEPES, 0.15 M Sodium Chloride, pH 7.5
Formulierung	Liquid
Target-Kategorie	Bovine
Antibody Type	Primary Antibody
Application Verdünnung	IHC: 1:100, WB: 1:1000
Anwendungsbeschreibung	Anti-Rhodopsin antibody has been tested in Western Blot and Immunohistochemistry. Expect a band of approximately 39 kDa in size corresponding to the rhodopsin proteins in Western blot in the appropriate cell lysate or extract. Researchers should determin
