## Product Datasheet

### **Retinoic Acid Receptor beta Antibody, IgG1, Clone: [336], Mouse, Monoclonal ROC-209-301-E26**

|                          |   |
|--------------------------|---|
| Artikelname              | Retinoic Acid Receptor beta Antibody, IgG1, Clone: [336], Mouse, Monoclonal   |
| Artikelnummer            | ROC-209-301-E26   |
| Hersteller Artikelnummer | 209-301-E26   |
| Alternativnummer         | ROC-209-301-E26   |
| Hersteller               | Rockland Immunochemicals  |
| Wirt                     | Mouse   |
| Kategorie                | Antikörper  |
| Applikation              | WB  |
| Spezies Reaktivität      | Human, Rat  |
| Immunogen                | Anti-Retinoic Acid Receptor beta was produced by repeated immunizations with a synthetic peptide corresponding to amino acid residues from the N-terminal region of RAR beta. |
| Konjugation              | Unconjugated  |
| Klonalität               | Monoclonal  |
| Klon-Bezeichnung         | [336]   |
| Isotyp                   | IgG1  |
| NCBI                     | <a href="#">5915</a>  |

|                        |   |
|------------------------|---|
| UniProt                | <a href="#">P10826</a>  |
| Puffer                 | 0.01 M HEPES, 0.15 M Sodium Chloride, pH 7.5  |
| Formulierung           | Liquid  |
| Target-Kategorie       | Human   |
| Antibody Type          | Primary Antibody  |
| Application Verdünnung | WB: 1:1000  |
| Anwendungsbeschreibung | Anti-Retinoic Acid Receptor beta antibody is tested for use in Western Blotting to detect a single band at approximately 48 kDa corresponding to expected molecular weight for RAR-beta proteins in the appropriate cell lysate or extract. Researchers should de |
