### Goat IgG anti-Rabbit IgG (Fc)-unconj., MinX none ROC-611-1103

|                                  |                                                                                             |
|----------------------------------|---------------------------------------------------------------------------------------------|
| Artikelname                      | Goat IgG anti-Rabbit IgG (Fc)-unconj., MinX none                                            |
| Artikelnummer                    | ROC-611-1103                                                                                |
| Hersteller Artikelnummer         | 611-1103                                                                                    |
| Alternativnummer                 | ROC-611-1103                                                                                |
| Hersteller                       | Rockland Immunochemicals                                                                    |
| Wirt                             | Goat                                                                                        |
| Kategorie                        | Antikörper                                                                                  |
| Applikation                      | ELISA,IHC,WB                                                                                |
| Spezies Reaktivität              | Rabbit                                                                                      |
| Immunogen                        | Anti-Rabbit IgG was produced by repeated immunization with rabbit IgG f(c) fragment in goat |
| Konjugation                      | Unconjugated                                                                                |
| Format                           | IgG                                                                                         |
| Spezifität                       | IgG (Fc)                                                                                    |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                                                         |
| Klonalität                       | Polyclonal                                                                                  |
| Konzentration                    | 2.26 mg/mL by UV absorbance at 280 nm                                                       |
| Puffer                           | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                  |

|                        |                                                                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid (sterile filtered)                                                                                                                                                                                                 |
| Target-Kategorie       | Rabbit                                                                                                                                                                                                                    |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                        |
| Application Verdünnung | ELISA: 1:20,000 - 1:100,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000                                                                                                                                               |
| Anwendungsbeschreibung | Antibody Anti-Rabbit IgG F(c) has been tested by ELISA, dot blot, and western blot and is suitable for immunohistochemistry as well as other peroxidase-antibody based enzymatic assays requiring lot-to-lot consistency. |
