| Artikelname                      | Rabbit IgG anti-Monkey IgG (H+L)-HRPO, MinX none                                       |
| Artikelnummer                    | ROC-617-403-002                                                                        |
| Hersteller Artikelnummer         | 617-403-002                                                                            |
| Alternativnummer                 | ROC-617-403-002                                                                        |
| Hersteller                       | Rockland Immunochemicals                                                               |
| Wirt                             | Rabbit                                                                                 |
| Kategorie                        | Antikörper                                                                             |
| Applikation                      | ELISA,IHC,IP,WB                                                                        |
| Spezies Reaktivität              | Monkey                                                                                 |
| Immunogen                        | Anti-Monkey IgG (H&L) was produced by repeated immunization with monkey IgG in rabbit. |
| Konjugation                      | HRPO                                                                                   |
| Format                           | IgG                                                                                    |
| Spezifität                       | IgG (H+L)                                                                              |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                                                    |
| Klonalität                       | Polyclonal                                                                             |
| Konzentration                    | 1.0 mg/mL by UV absorbance at 280 nm                                                   |
| Puffer                           | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                             |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                    |
| Target-Kategorie       | Monkey                                                                                                                                                                                                                                                         |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:50,000 - 1:100,000, IHC: User Optimized, IP: User Optimized, WB: 1:10,000 - 1:60,000                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-Monkey IgG (H&L) HRP conjugated Antibody has been tested in ELISA and western blot and is suitable for use in Western Blotting, Immunohistochemistry, ELISA as well as other antibody detection methods. Specific conditions for reactivity and signal de |
