### WM46 Viable Cells ROC-WM46-01-0001

|                          |   |
|--------------------------|---|
| Artikelname              | WM46 Viable Cells   |
| Artikelnummer            | ROC-WM46-01-0001  |
| Hersteller Artikelnummer | WM46-01-0001  |
| Alternativnummer         | ROC-WM46-01-0001  |
| Hersteller               | Rockland Immunochemicals  |
| Kategorie                | Zellen/Zellkultur   |
| Konjugation              | Unconjugated  |
| Produktbeschreibung      | WM46 is a metastatic human melanoma cell line that displays a pigmented fibroblastic morphology. This cell line was established from left chest & abdomen in a 43-year-old female patient with level IV superficial spreading melanoma and a tumor thickne...             |
| Konzentration            | 1.0 million cells/mL (Count By Hemocytometer)   |
| Puffer                   | None  |
| Quelle                   | Human   |
| Formulierung             | Frozen Cell Suspension  |
| Anwendungsbeschreibung   | The key applications of these cell lines include genetic studies, xenograft production, drug testing, and drug target discovery. These cell line models can be used in various biological assays, and for identifying critical target genes, and cell signaling pathways. |
