Polyclonal Rabbit anti-Human ZBTB7A / Pokemon Antibody (Biotin, aa224-273, WB) LS-C433349 LS-C433349-100

Artikelname	Polyclonal Rabbit anti-Human ZBTB7A / Pokemon Antibody (Biotin, aa224-273, WB) LS-C433349
Artikelnummer	LS-C433349-100
Hersteller Artikelnummer	LS-C433349-100
Alternativnummer	LS-C433349-100
Hersteller	LifeSpan Biosciences
Wirt	Rabbit
Kategorie	Antikörper
Applikation	WB
Spezies Reaktivität	Canine, Human, Monkey, Mouse, Primate, Rat
Immunogen	Synthetic peptide located between aa224-273 of human ZBTB7A (O95365, NP_056982). Percent identity by BLAST analysis: Human, Chimpanzee, Gorilla, Monkey, Galago (100%), Bovine, Bat (92%), Marmoset (85%), Mouse, Rat (84%).
Konjugation	Biotin
Produktbeschreibung	Pokemon antibody LS-C433349 is a biotin-conjugated rabbit polyclonal antibody to Pokemon (ZBTB7A) (aa224-273) from human. It is reactive with human, mouse, rat and other species. Validated for WB....
Klonalität	Polyclonal

Konzentration	1 mg/ml
NCBI	51341
Puffer	PBS
Reinheit	Immunoaffinity purified
Formulierung	PBS
Application Verdünnung	WB
Anwendungsbeschreibung	The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.
