Polyclonal Rabbit anti-Human DDC / DOPA Decarboxylase Antibody (FITC, aa359-408, WB) LS-C442157 LS-C442157-100

Artikelname	Polyclonal Rabbit anti-Human DDC / DOPA Decarboxylase Antibody (FITC, aa359-408, WB) LS-C442157
Artikelnummer	LS-C442157-100
Hersteller Artikelnummer	LS-C442157-100
Alternativnummer	LS-C442157-100
Hersteller	LifeSpan Biosciences
Wirt	Rabbit
Kategorie	Antikörper
Applikation	WB
Spezies Reaktivität	Bovine, Canine, Guinea pig, Human, Mouse, Porcine, Primate, Rat
Immunogen	Synthetic peptide located between aa359-408 of human DDC (P20711, NP_000781). Percent identity by BLAST analysis: Human, Gorilla, Gibbon, Marmoset, Mouse, Rat, Elephant, Guinea pig (100%), Monkey, Rabbit, Horse, Opossum (92%), Panda, Dog (85%), Stickleba
Konjugation	FITC
Produktbeschreibung	DOPA Decarboxylase antibody LS-C442157 is an FITC-conjugated rabbit polyclonal antibody to DOPA Decarboxylase (DDC) (aa359-408) from human. It is reactive with human, mouse, rat and other species. Validated for WB....
Klonalität	Polyclonal

Konzentration	1 mg/ml
NCBI	1644
Puffer	PBS
Reinheit	Immunoaffinity purified
Formulierung	PBS
Application Verdünnung	WB
Anwendungsbeschreibung	The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested.
