### PathPlus(TM) Vimentin Antibody LS-B16168, Unconjugated, Monoclonal LS-B16168-100

|                          |                                                                                                                          |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | PathPlus(TM) Vimentin Antibody LS-B16168, Unconjugated, Monoclonal                                                       |
| Artikelnummer            | LS-B16168-100                                                                                                            |
| Hersteller Artikelnummer | LS-B16168-100                                                                                                            |
| Alternativnummer         | LS-B16168-100                                                                                                            |
| Hersteller               | LifeSpan Biosciences                                                                                                     |
| Wirt                     | Mouse                                                                                                                    |
| Kategorie                | Antikörper                                                                                                               |
| Applikation              | IHC, IHC-P, WB                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                    |
| Immunogen                | Synthetic Vimentin                                                                                                       |
| Konjugation              | Unconjugated                                                                                                             |
| Produktbeschreibung      | Vimentin antibody LS-B16168 is an unconjugated mouse monoclonal antibody to human Vimentin. Validated for IHC and WB.... |
| Klonalität               | Monoclonal                                                                                                               |
| Konzentration            | 1 mg/ml                                                                                                                  |

|                        |                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | 7431                                                                                                                                                                      |
| Puffer                 | 0.5% BSA, 0.1% Kathon, Tris-Buffered Saline, DI H2O and 50% glycerol                                                                                                      |
| Reinheit               | Affinity purified                                                                                                                                                         |
| Formulierung           | 0.5% BSA, 0.1% Kathon, Tris-Buffered Saline, DI H2O and 50% glycerol                                                                                                      |
| Application Verdünnung | IHC (1:200 - 1:400), IHC-P (1:50), WB (1:200 - 1:400)                                                                                                                     |
| Anwendungsbeschreibung | Use Heat-induced epitope retrieval (HIER) Citrate buffer of pH 6.0<br>Recommended IHC controls tissues are Tonsil, Colon, Appendix. Resulting localization is Cytoplasmic |
