| Alternativnummer         | LS-C264839-200                                                                                                                              |
| Hersteller               | LifeSpan Biosciences                                                                                                                        |
| Wirt                     | Rabbit                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                  |
| Applikation              | ELISA, WB                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                       |
| Konjugation              | FITC                                                                                                                                        |
| Produktbeschreibung      | NUBP1 antibody LS-C264839 is an FITC-conjugated rabbit polyclonal antibody to human NUBP1 (NBP) (aa185-212). Validated for ELISA and WB.... |
| Klonalität               | Polyclonal                                                                                                                                  |
| NCBI                     | <a href="#">4682</a>                                                                                                                        |
| Puffer                   | PBS, No preservatives added                                                                                                                 |
| Reinheit                 | Affinity purified                                                                                                                           |

|                        |                                                                                                                       |
|------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Formulierung           | PBS, No preservatives added                                                                                           |
| Application Verdünnung | ELISA, WB                                                                                                             |
| Anwendungsbeschreibung | The applications listed have been tested for the unconjugated form of this product. Other forms have not been tested. |
