Polyclonal Goat Anti-Rat IgA Secondary Antibody (AP, IHC, WB) LS-C68441 LS-C68441-1

| | |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname | Polyclonal Goat Anti-Rat IgA Secondary Antibody (AP, IHC, WB) LS-C68441 |
| Artikelnummer | LS-C68441-1 |
| Hersteller Artikelnummer | LS-C68441-1 |
| Alternativnummer | LS-C68441-1 |
| Hersteller | LifeSpan Biosciences |
| Wirt | Goat |
| Kategorie | Antikörper |
| Applikation | ELISA, IHC, WB |
| Spezies Reaktivität | Rat |
| Immunogen | Rat IgA a chain. |
| Konjugation | AP |
| Produktbeschreibung | Rat IgA antibody LS-C68441 is an AP-conjugated goat polyclonal antibody. Validated for ELISA, IHC and WB.... |
| Klonalität | Polyclonal |
| Isotyp | IgA |
| Puffer | 10 mg/ml BSA (IgG, Protease free), 0.05 M Tris-Chloride, pH 8.0, 0.0001 M Zinc Chloride, 0.001 M MnCl ₂ , 0.15 M NaCl, 0.01% Sodium Azide, 50% Glycerol |

| | |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit | Immunoaffinity purified |
| Formulierung | 10 mg/ml BSA (IgG, Protease free), 0.05 M Tris-Chloride, pH 8.0, 0.0001 M Zinc Chloride, 0.001 M MnCl ₂ , 0.15 M NaCl, 0.01% Sodium Azide, 50% Glycerol |
| Application Verdünnung | ELISA (1:2000), IHC, WB |
| Anwendungsbeschreibung | Suitable for use in Western Blot (Western or Dot Blot), ELISA and Immunohistochemistry. ELISA: 1:2000 to 1:8000. 1.0 ug of rat IgA was used in a standard capture ELISA using pNPP (p-nitrophenyl phosphate) as a substrate for 30 minutes at RT. The applicat |
