| Artikelname              | Mouse AZI2 / NAP1 Expression-Ready ORF Clone (GFP, C-terminus) - LS-N109739                                                                        |
| Artikelnummer            | LS-N109739-1                                                                                                                                       |
| Hersteller Artikelnummer | LS-N109739-1                                                                                                                                       |
| Alternativnummer         | LS-N109739-1                                                                                                                                       |
| Hersteller               | LifeSpan Biosciences                                                                                                                               |
| Kategorie                | Molekularbiologie                                                                                                                                  |
| Spezies Reaktivität      | Mouse                                                                                                                                              |
| Produktbeschreibung      | Mouse AZI2 / NAP1 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-C-GFP, with C-Terminal GFP tag. Approximately 10 ug per unit.... |
| Konzentration            | Worldwide                                                                                                                                          |
| NCBI                     | <a href="#">109739</a>                                                                                                                             |
| UniProt                  | 64343                                                                                                                                              |
| Reinheit                 | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                              |
| Formulierung             | Lyophilized                                                                                                                                        |
| Anwendungsbeschreibung   | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                          |
