| Kategorie                | Molekularbiologie                                                                                                                                                               |
| Spezies Reaktivität      | Virus                                                                                                                                                                           |
| Produktbeschreibung      | Hepatitis C Virus HCV Core Protein Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-N-DDK (Flag, with N-Terminal DDK (Flag tag. Approximately 10 ug per unit.... |
| Konzentration            | Worldwide                                                                                                                                                                       |
| NCBI                     | <a href="#">160482</a>                                                                                                                                                          |
| Reinheit                 | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                                                           |
| Formulierung             | Lyophilized                                                                                                                                                                     |
| Anwendungsbeschreibung   | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                                                       |
