## Product Datasheet

### Human CDC34 Expression-Ready ORF Clone (His, N-terminus) - LS-N23951 LS-N23951-1

|                          |                                                                                                                                              |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Human CDC34 Expression-Ready ORF Clone (His, N-terminus) - LS-N23951                                                                         |
| Artikelnummer            | LS-N23951-1                                                                                                                                  |
| Hersteller Artikelnummer | LS-N23951-1                                                                                                                                  |
| Alternativnummer         | LS-N23951-1                                                                                                                                  |
| Hersteller               | LifeSpan Biosciences                                                                                                                         |
| Kategorie                | Molekularbiologie                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                        |
| Produktbeschreibung      | Human CDC34 Expression-Ready ORF Clone in Mammalian Expression Vector pCMV3-N-His, with N-Terminal His tag. Approximately 10 ug per unit.... |
| Konzentration            | Worldwide                                                                                                                                    |
| NCBI                     | <a href="#">23951</a>                                                                                                                        |
| UniProt                  | 997                                                                                                                                          |
| Reinheit                 | The insert is confirmed by full-length sequencing with the sequencing primers listed.                                                        |
| Formulierung             | Lyophilized                                                                                                                                  |
| Anwendungsbeschreibung   | Most commercially available competent cells are appropriate for propagation of the plasmid, e.g. TOP10, DH5a, and TOP10F.                    |
