Goat Dog IgA (Fc specific) antibody, Unconjugated, Polyclonal BYT-ORB21890

Artikelname	Goat Dog IgA (Fc specific) antibody, Unconjugated, Polyclonal
Artikelnummer	BYT-ORB21890
Hersteller Artikelnummer	orb21890
Alternativnummer	BYT-ORB21890-1
Hersteller	Biorbyt
Wirt	Goat
Kategorie	Antikörper
Applikation	DOT, IEP
Konjugation	Unconjugated
Produktbeschreibung	Precipitating polyclonal goat antiserum to dog IgA, Fc specific. In precipitating techniques as immunoelectrophoresis and radial immunodiffusion to identify the presence of IgA in dog serum or other body fluids or to determine its concentration. To p...
Klonalität	Polyclonal
Konzentration	Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.

Formulierung	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Anwendungsbeschreibung	The antiserum does not cross-react with any other component of the dog immunoglobulin system. Inter-species cross-reactivity is a normal feature of antibodies to immunoglobulins, since Ig of different species frequently share antigenic determinants. Cros
