| Puffer                   | HIP2 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.                                                                                                                   |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                    |
| Target-Kategorie         | UBE2K                                                                                                                                                                                                                                                          |
| Anwendungsbeschreibung   | HIP2 Peptide is used for blocking the activity of HIP2 antibody (catalog number 45-729). The HIP2 antibody ships at 0.5 mg/mL and the HIP2 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/m |
