| Spezies Reaktivität      | Hamster, Human, Mouse, Primate, Rat                                                                                                                                                                                                                                                   |
| Immunogen                | Fusion protein amino acids 437-585 (cytoplasmic C-terminus) of rat Kv3.1b (accession number P25122) produced recombinantly in E. Coli                                                                                                                                                 |
| Konjugation              | FL490                                                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | Our Anti-Kv3.1b K <sup>+</sup> channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N16B/8. It detects hamster, human, non-human primate, mouse, and rat Kv3.1b K <sup>+</sup> channel, and is purified by Protein A chromatography. ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                            |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                                             |

|                  |                                      |
|------------------|--------------------------------------|
| Klon-Bezeichnung | [N16B/8]                             |
| Molekulargewicht | 110 kDa                              |
| Isotyp           | IgG1                                 |
| UniProt          | <a href="#">P25122</a>               |
| Puffer           | PBS with 0.09% azide                 |
| Reinheit         | Purified by Protein A chromatography |
| Formulierung     | Purified by Protein A chromatography |
| Target-Kategorie | Kv3.1b K <sup>+</sup> channel        |
| Antibody Type    | Primary Antibody                     |
