| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Mouse, Rat, Xenopus                                                                                                                                                                                                                                           |
| Immunogen                | Fusion protein amino acids 564-624 of mouse Slo2.1 (accession number XP_920840) produced recombinantly in E. Coli                                                                                                                                             |
| Konjugation              | FL490                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Our Anti-Slo2.1/Slick K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N11/33. It is KO validated, detects mouse, rat, and Xenopus Slo2.1/Slick K+ channel, and is purified by Protein A chromatograph... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                  |                                      |
|------------------|--------------------------------------|
| Klon-Bezeichnung | [N11/33]                             |
| Molekulargewicht | 140 kDa                              |
| Isotyp           | IgG1                                 |
| UniProt          | <a href="#">D3Z649</a>               |
| Puffer           | PBS with 0.09% azide                 |
| Reinheit         | Purified by Protein A chromatography |
| Formulierung     | Purified by Protein A chromatography |
| Target-Kategorie | Slo2.1/Slick K <sup>+</sup> channel  |
| Antibody Type    | Primary Antibody                     |
