| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC                                                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Bovine, Human, Mouse, Rat                                                                                                                                                                                                                                     |
| Immunogen                | Fusion protein amino acids 2-77 of human KCNQ4 (accession number P56696) produced recombinantly in E. Coli                                                                                                                                                    |
| Konjugation              | FL550                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Our Anti-Kv7.4/KCNQ4 K+ channel mouse monoclonal primary antibody from NeuroMab is produced in-house from hybridoma clone N43/6. It detects bovine, human, mouse, and rat Kv7.4/KCNQ4 K+ channel, and is purified by Protein A chromatography. It is great... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/mL                                                                                                                                                                                                                                                     |

|                  |                                      |
|------------------|--------------------------------------|
| Klon-Bezeichnung | [N43/6]                              |
| Molekulargewicht | 77 kDa                               |
| Isotyp           | IgG1                                 |
| UniProt          | <a href="#">P56696</a>               |
| Puffer           | PBS with 0.09% azide                 |
| Reinheit         | Purified by Protein A chromatography |
| Formulierung     | Purified by Protein A chromatography |
| Target-Kategorie | Kv7.4/KCNQ4 K <sup>+</sup> channel   |
| Antibody Type    | Primary Antibody                     |
