| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant partial protein (within amino acids 200-295) from the human protein was used as the immunogen for the Cyclin D1 antibody.                                                                                                                       |
| Produktbeschreibung      | Recognizes a protein of 36kDa, identified as cyclin D1. Cyclin D1, one of the key cell cycle regulators, is a putative proto-oncogene overexpressed in a wide variety of human neoplasms. This antibody neutralizes the activity of cyclin D1 in vivo. Abo... |

| Klon-Bezeichnung         | [CCND1/7868]                                                                                                                                                                                                                                                  |
| UniProt                  | <a href="#">P24385</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Protein A/G affinity                                                                                                                                                                                                                                          |

|                        |                                                                                    |
|------------------------|------------------------------------------------------------------------------------|
| Formulierung           | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide            |
| Antibody Type          | Primary Antibody                                                                   |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT                         |
| Anwendungsbeschreibung | Optimal dilution of the Cyclin D1 antibody should be determined by the researcher. |
