| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A recombinant human protein fragment (within amino acids 1-184) was used as the immunogen for the recombinant BCMA antibody.                                                                                                                                  |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The B cell maturation protein (BCMA) is a type I integral membrane protein that belongs to the tumor necrosis factor receptor (TNF-R) superfamily. It is expressed as a 184 amino acid peptide that is expressed only in mature B-lymphocytes and is locat... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                   |
| Klon-Bezeichnung         | [CD269/7986R]                                                                                                                                                                                                                                                 |

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">Q02223</a>                                                                               |
| Formel                 | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide                              |
| Application Verdünnung | ELISA (Order BSA-free format for coating),Immunohistochemistry (FFPE): 1-2ug/ml for 30 minutes at RT |
