Rabbit betaTG(Thromboglobulin, Beta) ELISA Kit EBT-ELK8295

Artikelname	Rabbit betaTG(Thromboglobulin, Beta) ELISA Kit
Artikelnummer	EBT-ELK8295
Hersteller Artikelnummer	ELK8295
Alternativnummer	EBT-ELK8295-96,EBT-ELK8295-48,EBT-ELK8295-96X5
Hersteller	ELK Biotechnology
Kategorie	Kits/Assays
Spezies Reaktivität	Rabbit
Konzentration	15 ng/mL
Detektionsbereich	0.24-15 ng/mL
Sensitivitaet	0.11 ng/mL
Proben	Serum, plasma, tissue homogenates, cell lysates, cell culture supernates and other biological fluids.

Anwendungsbeschreibung	Assay Type: Sandwich. Assay length: 3.5h. Research Area: Cytokine,Hematology,. Test principle: The test principle applied in this kit is Sandwich enzyme immunoassay. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Rabbit betaTG. Standards or samples are added to the appropriate microtiter plate wells then with a biotin-conjugated antibody specific to Rabbit betaTG. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. After TMB substrate solution is added, only those wells that contain Rabbit betaTG, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450nm 10nm. The concentration of Rabbit betaTG in the samples is then determined by comparing the OD of the samples to the standard curve
