| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | Recombinant human Galectin-13 protein fragment (aa1-139) (exact sequence is proprietary)                                                                                                                                                                       |
| Produktbeschreibung      | It recognizes a 32kDa protein, which is identified as homodimer of galectin-13 (also known as PP13). Galectins are a family of soluble - galactoside-binding lectins that modulate cell-to-cell adhesion and cell-to-extracellular matrix (ECM) interaction... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [PP13/8897]                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 16kDa (monomer), 32kDa (homodimer)                                                                                                                                                                                                                             |

|              |                                                                                                                                                                             |
