| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa1-270) of human KCNIP2 protein (exact sequence is proprietary)                                                                                                                                                                 |
| Produktbeschreibung      | In the brain and heart, rapidly inactivating (A-type) voltage-gated potassium (Kv) currents control the excitability of neurons and cardiac myocytes. KCHIPs are Kv channel-interacting proteins that bind to the cytoplasmic amino termini of Kv4-subunit... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [KCNIP2/7589]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 27-36kDa                                                                                                                                                                                                                                                      |

|              |                                                                                                                                                                        |
