| Hersteller Artikelnummer | 3458-MSM1-P1                                                                                                                                                                                                                      |
| Alternativnummer         | NBT-3458-MSM1-P1-100                                                                                                                                                                                                              |
| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                |
| Wirt                     | Mouse                                                                                                                                                                                                                             |
| Kategorie                | Antikörper                                                                                                                                                                                                                        |
| Applikation              | FC, IF                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                             |
| Immunogen                | Purified recombinant human IFN-gamma                                                                                                                                                                                              |
| Produktbeschreibung      | Interferon (IFN)- translated precursor is 166 amino acids, including the 23 amino acid secretory sequence. Multiple forms exist due to variable glycosylation and under non-denaturing conditions due to dimers and tetramers.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                        |
| Klon-Bezeichnung         | [G-23]                                                                                                                                                                                                                            |
| Molekulargewicht         | 20-25kDa                                                                                                                                                                                                                          |
| Isotyp                   | IgG1                                                                                                                                                                                                                              |

|              |                                                                                                                                                                        |
