| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                             |
| Wirt                     | Mouse                                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Bovine, Canine, Equine, Feline, Gallus, Human, Porcine, Rat                                                                                                                                                                                                    |
| Immunogen                | Recombinant full-length human Vimentin protein                                                                                                                                                                                                                 |
| Produktbeschreibung      | This MAb reacts with a 58kDa protein identified as vimentin. It shows no cross-reaction with other closely related intermediate filament proteins (IFP s) such as desmin, keratin, neurofilament, and glial fibrillary acid protein. Anti-vimentin alone is... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [rVIM/6575]                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 57-60kDa                                                                                                                                                                                                                                                       |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                           |

|              |                                                                                                                                                                        |
