| Alternativnummer         | BSS-BS-14294R-CY5-100, BSS-BS-14294R-CY5-20                                                                                                                                              |
| Hersteller               | Bioss                                                                                                                                                                                    |
| Wirt                     | Rabbit                                                                                                                                                                                   |
| Kategorie                | Antikörper                                                                                                                                                                               |
| Applikation              | IF, WB                                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Rat                                                                                                                                                                               |
| Immunogen                | 201-300/735                                                                                                                                                                              |
| Konjugation              | Cy5                                                                                                                                                                                      |
| Produktbeschreibung      | Upon cell stimulation converts the second messenger diacylglycerol into phosphatidate, initiating the resynthesis of phosphatidylinositols and attenuating protein kinase C activity.... |
| Klonalität               | Polyclonal                                                                                                                                                                               |
| Konzentration            | 1ug/ul                                                                                                                                                                                   |
| NCBI                     | <a href="#">1606</a>                                                                                                                                                                     |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.03% Proclin300 and 50% Glycerol.                                                                                  |

|                        |                                                                             |
|------------------------|-----------------------------------------------------------------------------|
| Quelle                 | KLH conjugated synthetic peptide derived from human DGKA                    |
| Reinheit               | Purified by Protein A.                                                      |
| Target-Kategorie       | DGKA                                                                        |
| Application Verdünnung | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200) |
