| Immunogen                | 601-700/4490                                                                                                                                                                                                                                       |
| Konjugation              | Cy3                                                                                                                                                                                                                                                |
| Produktbeschreibung      | The protein encoded by this gene is a heavy chain of an axonemal dynein involved in sperm and respiratory cilia motility. Axonemal dyneins generate force through hydrolysis of ATP and binding to microtubules. [provided by RefSeq, Jan 2012]... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                         |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                             |
| NCBI                     | <a href="#">1769</a>                                                                                                                                                                                                                               |
