complement component 7 Peptide PRS-43-394P

Artikelname	complement component 7 Peptide
Artikelnummer	PRS-43-394P
Hersteller Artikelnummer	43-394P
Alternativnummer	PRS-43-394P-0.1
Hersteller	ProSci
Kategorie	Proteine/Peptide
Applikation	Blocking
NCBI	730
UniProt	P10643
Puffer	complement component 7 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Formulierung	Lyophilized

Anwendungsbeschreibung	complement component 7 peptide is used for blocking the activity of complement component 7 antibody (catalog number 43-394). The complement component 7 antibody ships at 0.5 mg/mL and the STK36 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide..
