Activin receptor-like kinase 1 Peptide PRS-45-200P

Artikelname	Activin receptor-like kinase 1 Peptide
Artikelnummer	PRS-45-200P
Hersteller Artikelnummer	45-200P
Alternativnummer	PRS-45-200P-0.1
Hersteller	ProSci
Kategorie	Proteine/Peptide
Applikation	Blocking
NCBI	94
UniProt	P37023
Puffer	Activin receptor-like kinase 1 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Formulierung	Lyophilized

Anwendungsbeschreibung	Activin receptor-like kinase 1 Peptide is used for blocking the activity of Activin receptor-like kinase 1 antibody (catalog number 45-200). The Activin receptor-like kinase 1 antibody ships at 0.5 mg/mL and the Activin receptor-like kinase 1 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide.
