Product Datasheet

Annexin A1 Peptide PRS-46-785P

Artikelname	Annexin A1 Peptide
Artikelnummer	PRS-46-785P
Hersteller Artikelnummer	46-785P
Alternativnummer	PRS-46-785P-0.1
Hersteller	ProSci
Kategorie	Proteine/Peptide
Applikation	Blocking
NCBI	301
UniProt	P04083
Puffer	Annexin A1 peptide is supplied as 100 µg of dried peptide. When the peptide is reconstituted in 200 µL water, the concentration will be 0.5 mg/mL.
Formulierung	Lyophilized

Anwendungsbeschreibung

Annexin A1 Peptide is used for blocking the activity of Annexin A1 antibody (catalog number 46-785). The Annexin A1 antibody ships at 0.5 mg/mL and the Annexin A1 Peptide ships as a 100 ug pellet. When peptide is reconstituted in 200 uL water, the concentration will be 0.5 mg/mL, identical to that of the antibody. The best starting ratio would be 1:1 (which means molar excess of peptide relative to antibody when identical volumes are mixed). Mix equal volume of peptide and antibody at the required dilution and leave at ambient temperature for 20 minutes. Then incubate and develop in parallel two blots: one with the antibody and one with the antibody which has been pre-absorbed with the provided peptide.
