| Puffer                   | Lyophilized from a concentrated sterile solution containing 50mM Tris-Hcl buffer (pH 8.0) and 100mM NaCl. Reconstituted in sterile H2O not less than 100 µg/ml, which can then be further diluted in other aqueous solutions. |
| Quelle                   | E. coli                                                                                                                                                                                                                       |
| Reinheit                 | >90% (SDS-PAGE). Endotoxin level is less than 0.1EU/ µg protein (LAL test, Lonza).                                                                                                                                            |
