| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 92-126 from human THBD was used as the immunogen for the Thrombomodulin antibody.                                                                                                                                                    |
| Produktbeschreibung      | Thrombomodulin/THBD/TM/CD141 is a specific endothelial cell receptor that forms a 1:1 stoichiometric complex with thrombin. This complex is responsible for the conversion of protein C to the activated protein C (protein Ca). Once evolved, protein Ca ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P07204</a>                                                                                                                                                                                                                                        |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                              |
| Formulierung             | In 1X PBS, pH 7.4, with 0.09% sodium azide                                                                                                                                                                                                                    |

|                        |                                                                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Primary Antibody                                                                                                                                                                                   |
| Application Verdünnung | Western blot: 1:2000                                                                                                                                                                               |
| Anwendungsbeschreibung | The stated application concentrations are suggested starting points. Titration of the Thrombomodulin antibody may be required due to differences in protocols and secondary/substrate sensitivity. |
